**FLEXIBLE, RESULTS-ORIENTED & PROFESSIONAL MAINTENANCE TECHNICIAN & ELECTRICIAN**  
*Experienced ★ Knowledgeable ★ Versatile ★ Adaptable ★ Dependable*  
*Troubleshooting...Problem-Solving...Efficiency...Supervision & Training...Project Management*

**PROFESSIONAL EXPERIENCE**

**MAINTENANCE ELECTRICIAN** Northwest Electrical Corp, Orange Grove, WA 1999–2014

- Used laptop and desktop workstations to troubleshoot problem sources on PLC and CNC program controlled equipment in the machining, production, and assembly plant areas. Neatly filed reports and looked up parts.
- Corrected and repaired equipment using effective analytical problem solving strategies.
- Contributed to fostering team collaboration by assisting other trades in identifying mechanical, hydraulic, and pneumatic problems, which resulted in increased efficiency by 30%.
- Worked on executing construction projects and consistently performed Project Management tasks.

**MASTER ELECTRICIAN** Wonkor Corp., Pamoma, OR 1994–1999

- Expanded knowledge base focusing on two skilled trades – Mechanical and Electrical.
- Refined problem solving efficiency skills to align with meeting the demands of a high production schedule.
- Provided production machining and assembly line support to machine center containing G.E Fanuc-controlled Toyoda and Chiron mills, Okuma lathes, and digital servo-drives. Assembly lines contained Allen Bradley PLC 5 controllers, Miller/Hobart wire-feed and stud welders, large spot welders, and small presses.

**JOURNEYMAN MAINTENANCE ELECTRICIAN** General Dynamics, Lima, OH 1984–1993

- Efficiently repaired and maintained welders, presses, machining centers, hoists, cranes, shape cutting oxy fuel and plasma arc units; coordinated axis drive systems with precision.
- Worked extensively on Allen Bradley PLC, PLC 2, and PLC 3 controllers, Gould Modicon PLCs and Allen Bradley 7300, 8200, and 9000-series CNC machine controllers.

**JOURNEYMAN INSIDE WIREMAN** I.B.E.W/Local 683, Columbus, OH 1979–1983

- Successfully completed industrial and commercial construction projects with 100% client satisfaction. Honed skills in print reading, job layout, conduit bending, wire pulling, heavy machine and switchgear moving and installation, industrial power distribution and motor control installation.
- Trained and supervised apprentices using elaborate and methodical teaching strategies, which resulted in 35% improvements in organizational efficiency and safety. Received 'Employee of the Month' Award.

**EDUCATION/CERTIFICATIONS**

**Diploma, Electronic Technician** – Ohio Institute of Technology, Columbus, OH ♦  
**Journeyman Inside Wireman** – Springfield Local 669 Joint Apprentice Training Council, Springfield, OH  
**Off Job Site Training:** Allen Bradley PLC 2-3-5; R.S. Logix; Troubleshooting; Repair & Programming; G.E. FANUC 15M CNC Controllers and Digital Servo-Drives; Toyoda Machining Center Spindle Maintenance
